

ACTIVITIES: RCCR sponsors several AMA sanctioned events each year for power planes, electric and sailplanes. The club also sponsors public displays of models to stimulate interest and maintain public relations. Social activities also include the annual Mid-Winter Party & Roast, and picnics during the year.

FLYING FIELDS: The club operates three separate fields, two which the RCCR developed and maintain in conjunction with the Monroe County Parks Department.

The field in **Northampton Park** is to be used by other clubs and the public. An AMA license is all that's required for use. Rules are posted at all fields and must be observed at all times. New pilots are encouraged to take advantage of several instructor pilots we have available to teach flying. Anyone can learn to fly if trained properly. Contact can be made at the field, especially Tuesdays after 4:30 PM, and also at the semi-monthly meetings.

The field in **Black Creek Park**, on the west side of Union Street (Rt.259), south of Chili Avenue, is reserved for sailplanes and electric power (No Noise). An AMA license is all that's required for use.

Hasman Field is located on the West Ridge Road Airport, on the north side of Ridge Road (Rt.104), 1 mile west of Union St. (Rt.259). This field is private and only for members and their guests..

Additional membership benefits include a newsletter and helpful assistance to novices in building and flying model aircraft.

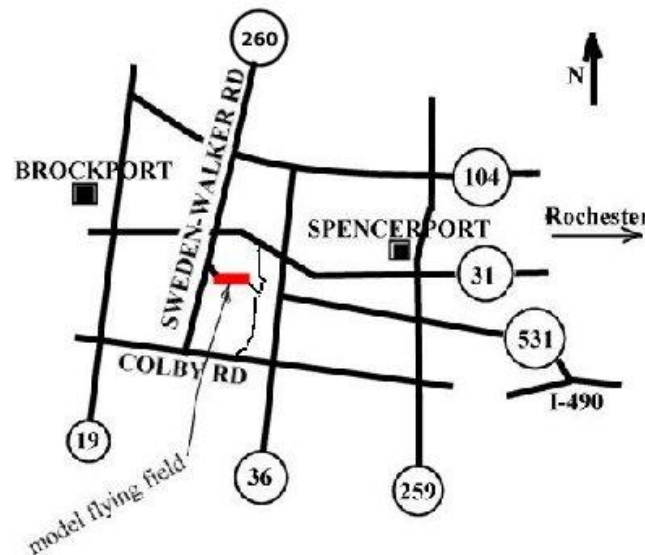

All visitors are always welcome at the field and at regular meetings.

Visit the RCCR web page for club information and link to other sites related to the hobby:

MODEL FLYING FIELD
NORTHAMPTON PARK
MONROE COUNTY
BROCKPORT NY

Longitude 77.53.86 W
Latitude 43.11.08 N

Radio Control Club of Rochester

Established in 1957 to aid and encourage interest in the design, construction, and safe operation of radio-controlled model aircraft, boats, and cars.

MEETINGS are at Our Mother of Sorrows. 5000 Mount Read Blvd, Rochester, New York 14612 on the second and fourth Wednesday of every month. During summer months, meetings may be held at one of the fields. Guests are cordially invited.

Meetings consist of a business agenda, committee reports, and task assignments. This is followed by show- and-tell and an informational program featuring, videos, live demos, and invited speakers; on subjects relating to the hobby. The show-and-tell gives the members a chance to show off and discuss their latest projects, and stimulates a lively exchange of facts and tips. Participation in the show-and-tell enters the member in a cash prize drawing at the December annual business meeting.

ANNUAL DUES

- New - \$35 plus one-time initiation fee of \$20 (\$55 total for first year)
- Renewal - \$75 reduced by work credits of \$2 per hour, with maximum reduction of \$40
- Junior - FREE if under 18
- Student - \$10 if 19 years old or older
- Social - \$35
- Guest - \$15
- Additional Family Members - FREE

QUALIFICATIONS FOR MEMBERSHIP

You must have a current Academy of Model Aeronautics (AMA) license to join and maintain RCCR membership. AMA license application blanks are available at club meetings and most hobby shops. The license provides secondary liability insurance coverage and contest participation privileges throughout the USA. License fees and options are listed on the application form.

Northampton Park Model Flying Field is scheduled for training sessions every Tuesday evening, May through September. Students benefit by learning to fly with an experienced instructor using a "buddy box."

Several members of RCCR join to fight with members of other area clubs in 1/12 scale and open combat and slow-survivable combat, governed by the AMA's special Interest group, the Radio Control Combat Association. A 30-foot streamer is attached to the plane and contestants try to cut off the streamers from their opponents' planes.

Some members specialize in flying sailplanes and have acquired a lot of knowledge and experience which they gladly share with others.

Ernie Nikodem is the Associate Vice President for our area of the AMA District 2. You will find him at most of the events in our area. He is also very active in the Niagara County R/C Club.

RCCR provides well groomed fields for every day flying.

The Great Electric Fun Fly consists of two days of quiet flying in August. There are a couple of events, many prizes, and hours of electric flying fun in the sun.

The annual Ray Edmunds Memorial Air show & Fun Fly is held the last weekend in June usually at Northampton Park in Brockport NY. Many fliers from other clubs join the fun of relaxed flying with no competition.

The annual InterClub Fun Fly and Picnic is held on a rotating basis at the host club's flying field.

The annual New Year's Day Chilly Chili Fuhn Fly has become a favorite mid-winter gathering. Lunch is served in the form of judging all of the different samples of chili submitted by the contestants.

In addition to the RCCR events, some members participate in the events of other clubs, like this scale event of the Flying Knights of Hamburg.

Canandaigua CHIEFS Float Fly at Honeoye Lake

The annual Mid-Winter Party and Roast, happening in February, provides a great evening gathering for dining for you and your valentine, and for celebrating the year's accomplishments.
