The purpose of the Radio Control Club of Rochester is to aid and encourage the interest of the members in design, construction and safe operation of model aircraft, boats, and cars, -- in particular, radio-controlled models -- so we can all enjoy the pleasures and satisfaction these hobbies bring.

All Visitors are always welcome at the field and at regular meetings
RCCR meetings are held every second and fourth Wednesday of the month

Every Tuesday evening (4:30 pm til sunset) training has priority at the flying fields.
Be there and make safety your choice.

Notes from the prez

What great flying weather we have had in May! I'd like to thank George Steger for fixing a blown head gasket in the Northampton mower so he could keep ahead of the grass. And also a thank you to John Floyd for looking over the Massey-Ferguson spare mower at Northampton and helping to get it repaired. Jack Butler got rid of the old mattress at Bolling for us, too.

Our Fun Fly June 6th & 7th at Northampton should be a good time for all. Come and fly, and also help us a few hours at the food tent. Give Jerry Joseph a call to sign-up for some small task.

Remember our flying limits at the fields - stay east of the flag at Northampton, and south of the flag at Bolling. I'll be checking noise at the field limits, as well as within 9 feet of the planes to build some background info. If anyone would like to help, please give me a call.

Our second meeting of June, July, and August will be at Bolling at 7:30 p.m. instead of Salem Church. Check our phone voice mail for possible cancellations in case of rain. The first meeting (second Wednesday) of each month will still be at the Salem Church.

Training attendance has been picking up on Tuesday evenings at Northampton. Trainers and trainees have been plentiful and well matched.

It's time to fly, repair, and modify. Let's get to it!
Trev

R.C.C.R. Meeting Minutes : 4/22/98 At Salem Church
Officers Present : Trevor Ewell, Jerry Joseph, Pete Durante, Phil Slater and Greg Pszyk

First Time Visitors :

Second Time Visitors :

Membership Update : 99

Treasurer's Report : On Hold
Old Business : Northampton Field is a little wet but in good shape. Bolling field is in need of another storage shed. The Lease for Bolling field has not been signed as of yet. The Club needs more volunteers for the June Fun Fly. Help is needed with setup and the Hotdog Stand. Plans are being worked up to move the Pits fence at Northampton Park. This will hopefully give the grass a chance to grow back.

New Business : Mike Hatch checked up on a "Noticeable Noise Complaint" that was reported at Northampton Park. The airplane that was flying was equipped with a muffler but was audible on its turns from the road. Wind direction will have an effect on audible noise. All Members are urged to use mufflers that keep their engines exhaust noise to a minimum.

Show & Tell : Dave Hoffman told us about a problem fitting an engine to a Dave Brown engine mount. According to Dave the case width measurements were not correct. See Dave for the exact details. Dave also brought in samples of a rear turtle deck that he made from a jig he designed to apply balsa sheeting to foam. Todd Sheehan brought in his Mini Hotliner Peppo Electric that weighs 20.3 oz. Power is supplied by a Speed 480 race motor that runs for 15 seconds to gain altitude then turned off for diving glider maneuvers. The plane uses 2 control surface channels. John Wajowski brought in his Great Planes PT40 powered by an OS40. This is John's first built up kit airplane and looks great. We'll see him at the field this summer!

R.C.C.R. Meeting Minutes : 5/13/98 At Salem Church submitted by Stan Teachman

Officers Present : Trevor Ewell, Jerry Joseph, Pete Durante, and Phil Slater

First Time Visitors : Jerry Hailston

Second Time Visitors : None

Membership Update : On Hold

Treasurer's Report : On Hold
Old Business : Jerry made a request for volunteers to help with the June Fun Fly. Spotters are needed for full size aircraft traffic. Ed Dickinson needs volunteers to help with the Combat Demo, Sailplane demo, and control line demo.

New Business : Bolling Field was rolled and mowed 5/12/98 and is in good condition. A new boundary flag has been installed on the North end near the creek. A 3/4" pressure treated plywood floor will be added to the new shed. At Northampton Field Tuesday, two students were training with many instructors available. Dave Hoffman volunteered to move the barricade back(?). Don Steeb suggested the whole flight line be moved to the East. Two new shed keys were given to John Floyd and Phil Evans. Norm Neal gave the Club a 25" riding mower. The 42" riding mowers might need to be replaced. Plans are being made to get the Massey Ferguson mower running and to bring it out to Bolling Field. The 2nd meetings of June, July, and August, will be held at Bolling Field.

Show & Tell : Information was brought up on participation in the Monroe County Air Show in August. Greg Kessel brought in a rack he made for carrying airplanes in his Mini Van made from plastic pipe. Don Ogren talked about his trip to Florida. Don joined a club in Spring Hill Florida called The Hernando Aero Modelers (HAM). Howard Gaiger brought in an electric motor that he is problems finding a prop that will fit it.

AIRFLOW CORRECTIONS

May's *Airflow* credit for The First Flying Rules 1922 should have been to **Robert Horn**. Thanks again, Bob Horn, for a great article. Also credit was given to George Hartman for obtaining the pizza on Bolling Cleanup day, we should also thank **Trev Ewell** for picking up the tab - Thanks Trev - the pizza was a high spot of the day!

MAY 17--Lockport, NY (A)

John Grigg Memorial Sailplane Meet

The Niagara County Parks built a nice shelter, next to the model flying field. It provided a shady cool place, which just happened to have some great hot dogs grilled to perfection by Van.

Bill Wegman puts one up.
Some more activity may be seen in the near future on the AMA District web page <http://www.amadistrict11.org/district.htm>

From the Editor

One of the toughest tasks that I find is trying to layout a schedule of modeling activities that are happening around us. Along comes May and June and the world is tumbling with activity. The area clubs have activities which they would like to have known at RCCR and other clubs. For instance, did you know that the some members of the Aero Guidance Society of Vestal, NY (the club which organizes the fun-flies at Greenwood Park) like to go to Montrose, PA, August 1 for the Endless Mountain R/C Flying Club Fly-In at the Saverton Airport. Until I find a method, many of which look promising, I ask you to take a look at the schedule on the front page, look all through the newsletter for events like the Elmira Aerotow, and try to put it together. First, let's have the front page events for June:

- June 6-7 **Ray Edmunds Memorial Air Show & Fun Fly (Northampton Park)**
- June 13-14 **BARKS Air Show & Fun Fly (Bath, NY)**
- June 20-21 **RCCR International Precision Aerobatics Contest (Northampton Park)**
- June 27 **RCCR Combat (Redman Rd.)**
- June 28 **Stump Jumpers Air Show (Middlebury Center, PA)**

OK, now lets get AMA Sanctioned events for June in NY:

That took about 15 minutes, going to internet, district, sorting out NJ events, and formatting it to make the lines for this page, and the schedule includes all on the front page, except for Stump Jumpers which is in PA. But you get the Model Aviation which has the same calendar, and it would only take you a short while to get the NY events for June. Also there are other interesting events like:

JUN 12 - 14 at International Aeromodeling Center the Grand 1998 Event which has Model Airplanes, Boats, Cars, Kites, Rockets, and Trains. Free Admission. Contact (765)287-1256 ext. 252. (AMA Muncie, Indiana)

JUN 13 - 14 Wings Over Batavia Airshow. Canadian Forces Snowbirds, F-14 Tomcat, F-15 Eagle, Firebirds, Air Alliance, Jane's Combat Simulations, and more. Advance tickets at Wegman's Sugar Creek, Chase-Pitkin, and Fleet Bank.

JUN 20 - 21 IMAA 1/4 Scale Air Fair at Shelby Ohio Airport

JUN 21 Lockport Pylon Races

JUN 27 - 28 Greater Cincinnati Jet-Fly

JUN 27-28 Niagara Falls Air Show

JUN 28 Biplanes over Pennsylvania (squeakl@epix.net)

Then there all the goodies which happen in July. I'm thinking that this event information for June might have been more useful in last month's newsletter, and this page should have been devoted to upcoming events in July. When things cool off this winter, I'll try to do that - bring you the schedule a month in advance. Of course this means that CD's and secretaries of the clubs should be sure to get sanctions well in advance in order that we may obtain the information. As for June, you can see that there is an abundance of activities. Pick your choices and support the events by your attendance. Pack up the planes and equipment and go join the flying, even if it is to Northampton or Bolling Field. **Be sure to attend and assist at the June 6 - 7 Ray Edmunds Memorial Air Show & Fun Fly (NorthamptonPark). Your assistance on the afternoon of Friday June 5 will make Northampton field preparations go smoothly.**
